# Campaign for the NHS Bill!

The **NHS Bill** supported by Caroline Lucas and Jeremy Corbyn, initially scheduled for a second reading March 2016. The Bill will:

**Restore the Government's legal duty** to provide a comprehensive health service in England (this duty was abolished in 2012!).

**Re-establish public NHS bodies** with public provision and public accountability of services, and integrate health and social care

## **Abolish the market in the NHS:**

- **End privatisation:** stop public money spent providing private profits for healthcare corporations. Stop private companies hiding poor performance behind 'commercial confidentiality'
- **Abolish competition** which sets one part of the NHS against another instead of encouraging co-operation and coordination that is vital to high quality healthcare
- **Save £10.8bn** a year squandered on the legal and administrative costs of tendering and procuring NHS services
- **Tackle profiteering Private Finance Initiative (PFI) debts** that are bankrupting many NHS trusts
