# Bring Back Our NHS

The Health & Social Care Act 2012 (HSCA) has thrown England's NHS into a destructive, dangerous, disorganisation. It has ended the right to healthcare for all who need it (universal right). Access to a full range of health services (comprehensive healthcare), free at the point of use, has been shattered by legal changes in the HSCA, increasing private contracts and defunding of the NHS pursued via Sustainability & Transformation Plans, and breaking the NHS into 44 "Footprints" in a major top-down re(dis)organisation. We must win back our NHS; stabilise and secure its future; and restore it back to good health from a critical condition.

 **Yes** to an NHS brought back into public ownership – we own the NHS & its assets

 **Yes** to an NHS that provides the comprehensive care we've come to expect, through high quality staff cooperating to deliver frontline care to patients

 **Yes** to an NHS with enough doctors & nurses to keep our hospitals open & safe

 **Yes** to an NHS that's legally protected from dodgy trade deals like TTIP

 **Yes** to an NHS that's for everyone, without discrimination – its founding vision

 **No** to an NHS with private companies cherry picking the easy operations, quick procedures and easy cash

 **No** to an NHS split into competing trusts, forced to waste time and money fighting off bids from private firms like Virgin, with commissioners denying patients vital procedures such as hip or cataract ops, vasectomies, hearing aids and more

 **No** to an NHS with longer waiting lists and more bed closures justified by lies about 'care in the community'

 **No** to an NHS of dangerously underfunded emergency & maternity services, with private corporations taking lucrative specialties and expanding insurance-based care

 **No** to an NHS of semi-privately run foundation trusts (FTs), exploitative PFI deals undermining NHS hospitals

Campaign for the  
**NHS Reinstatement Bill**

**Only a change in the law can save it!**
