

Motion to affiliate to Keep Our NHS Public (KONP)

This (*insert: branch/region/union*) congratulates Keep Our NHS Public on its campaigning work in recent years directed at protecting a publicly funded National Health Service, free at point of use, adequate to demand, and available to all regardless of financial means or national origin.

At local level, KONP is an active and well-rooted organisation comprising over 70 local groups and several national health campaigns including Doctors for the NHS and the NHS Support Federation. At national level, KONP has been at the forefront of many specific initiatives supported by trade unionists around the country, such as the 2018 “NHS 70th Birthday” march. KONP groups and members have stood shoulder to shoulder with health and allied workers’ trade union struggles for decent pay and conditions, as well as against out-sourcing and “Hostile Environment” policies.

KONP also maintains an up-to-date website and provides its supporters with a regular newsletter, both of which are useful resources for trade unionists and health campaigners.

This (*insert: branch/region/union*) therefore agrees to affiliate to KONP and encourage our members to support its aims and campaigns.
