

NHS WINTER CRISIS

IT DOESN'T HAVE TO BE THIS WAY

THE GOVERNMENT CREATED THIS MESS
EMPTY PROMISES WON'T FIX IT

TAKE BACK OUR NHS FOR PATIENTS NOT PROFIT

THE NHS IN CRISIS:

- longest ever waits in A&E
- 3x increase in trolley waits, over 12 hours for a bed
- hospital buildings crumbling
- 4.6 million people on waiting lists for treatment
- 5449 deaths linked to patients waiting for hospital beds
- longest ever waits for cancer care

WHAT GOVERNMENT IS DOING:

- they say 40 new hospitals but mean just 6 refurbishments
- they say the NHS will be kept out of trade deals but cannot guarantee it
- their promised extra funding is not adjusted for inflation, meaning £billions less than needed
- they're increasing corporate involvement in the NHS
