

NHS staff say; don't blame our patients!
Winter Crisis is the government's crisis
5449 died waiting on hospital trolleys

NHS STAFF VOICES

NHSStaffVoices.KONP@gmail.com

NHS Staff Voices is part of Keep Our NHS Public.

We stand for an NHS protected from privatisation, commercialisation and cuts to services.

We campaign for a fully and publicly funded NHS that is capable of delivering a world class service for all, no matter where you come from or what you earn.

We aim to create an opportunity for staff and students across the NHS to network and share experiences and ideas; to develop campaigns, work with unions and organise actions.

We aim to join up frontline NHS workers with the experience of community NHS campaigners up and down the country.

Together we can save the NHS. Join us.
