Our social care system is failing everyone except the private providers who are rinsing it for profit

Half of those requesting support get no help. 16,000 are trapped in hospital for want of support in the community. Some have given up services because they can't afford increased charges. Many are struggling to survive, stay safe and avoid total isolation. Care and support workers are leaving in droves because they can't live on their meagre wages. Family carers are exhausted.

Join us and help to raise a mighty roar to end this social care disgrace and defend human rights

RESIST ALL MEASURES

which increase poverty and exclusion
