Dear: \_\_\_\_\_ MP

Date: \_\_\_\_\_

I am very worried about the NHS. There are millions on waiting lists, long ambulance waits and staff shortages. It's difficult to see a GP and to find an NHS dentist. New Government funding is not enough to restore the NHS. Billions going from the NHS to profit-taking private companies wastes public money and costs lives.

**I am particularly worried about:**

***I ask you urgently as my MP to please actively support:***

- More emergency funding to start to repair the damage
- Restoration of a publicly provided NHS and ending outsourcing of NHS care to private companies
- Support the call to 'restore the People's NHS'

*Yours sincerely*
